

Hay Al-Sharooq International School Keeping in touch...

Whole School Headlines: 14/02/19

WORK HARD, PLAY HARD

After almost unbroken sunshine in Sur for the last six months, our Sports Days had to be moved due to bad weather. However, both events have taken place this week and have seen excellent participation and performance from all students.

On Monday the Primary children took part in traditional sporting events where they were developing teamwork skills, athletic skills and trying to beat the other teams. In the afternoon we witnessed our athletic races with students challenging to see who would be the best three runners in their year group.

The secondary sports day began with the girls events in the morning followed by the boys. Despite some extremely challenging conditions the girls event finished with some excellent individual athletic performances. The boys event, unfortunately, had to be stopped due to the weather however we were able to have a highly competitive high jump contest in Grades Six, Seven and Eight. The final few races and events will take place for them just before half-term.

We thank and congratulate all of the students who took part.

“dedicated to educating confident, innovative and brave children to their highest academic and creative potential”

Our latest development is to the visitor passes all visitors must wear to be identifiable in the School. We have added a bilingual safety card and evacuation route map to all passes. We thank Ms. Alia of the School in the administration team for her excellent suggestion!

Health, Safety and Environment Update

GRADE TWELVE EXAM SUCCESS

We would like to congratulate our Grade 12 students for the great results they have achieved in semester one.

We are sure they must be very happy after putting in so much hard work and dedication. This perseverance has helped them to get through this tough period.

For those who couldn't achieve what they really wished for in semester one, there is always room for improvement. We advise setting targets, aiming high and working with your teachers to maximise your

grades.

We encourage all our students sitting examinations in the summer to work as hard as possible in the short second semester and ensure they aim to top the first semester results.

Well done everyone!

STUDENT ENVIRONMENTAL ACTION

A partnership has been formed between the newly opened Lulu hypermarket and HASIS in order to address the issue of plastic waste in the environment.

The School's environmental action group have been engaging with the community, sharing the impact of single-use plastics in our environment and some small changes we could all make to help.

Children from across the school were involved in the project. They spoke with Lulu staff about the need for reducing plastic bag usage,

encouraging everyone to purchase a reusable shopping bag in place of the single use types.

Our hope is that every child becomes aware of these issues and in turn, shares this knowledge with their families to help our community.

Another exciting environmental project coming soon to the School is 'ONE OCEAN' which will involve HASIS, OLNG and KBR. This is a global initiative involving children from many countries, and will expose our students to genuine global environmental problem-solving.

The next two weeks at HASIS...
